Mr. Mark E. Bailey
Area Manager
Bureau of Land Management
Fillmore, Utah 84631

Dear Mr. Bailey;

In regards to your letter dated May 15, 1986, concerning proposed mining operation along the Sevier Lake. I have the following comments and questions:

1. As per your map, I don't feel this would hamper my winter range operations, as this project is on the south end of my permit.
2. What areas would fill for the dike and ponds be obtained?
3. Would the water on the north end, around the Coates Reservoir, possibly become more fresh and usable?
4. The access road would improve access to part of my permit.
5. Would there be a water well for processing at the site which could be used for livestock?

Thank you for the opportunity to comment on this project.

Sincerely,

Doyce L. Coates
